

It's 9:30 AM. Priyanka steps out of her house, bag in hand, ready to board her office cab. Another morning, another day at Capgemini.

Hey, Priyanka, I heard you're getting married?
Yes, yes. I'm getting married next month.
I thought you liked somebody from the office.
No, no. He's from the US. He's based out of the US.

I thought that I'll try on her. But she is also getting married now. All these beautiful hot chicks are getting married in US and they're moving out of India. When the fuck will I change my lifestyle? I don't understand. All that I'm giving fake smile to hot bitches

I will keep on regretting all the time.
everyday this guy will welcome me on-board, and he will scan my full body,
I'm not sure if he jerks off after going to office in the washroom.

I hope I have reached on time. Oh my God, a lot of work today.

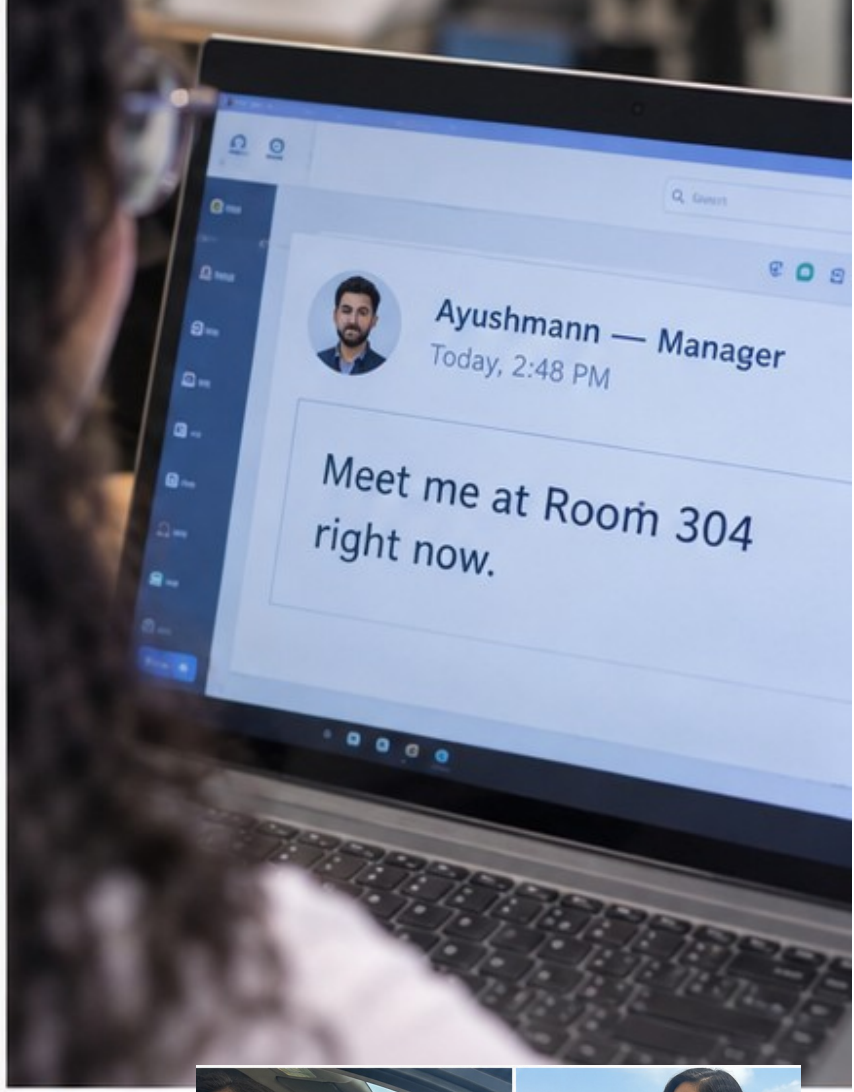

she continues her office for the next 5 hours.

what the fuck , why is he pinging me ?

what the fuck behenchod!!! why the hell did I fucked him in car ...he will spoil my office life also.

Meet me at Room 304 right now.

Not sure what the fuck he is going to ask now.

Everything was going perfect; she was getting fucked on weekends. Zero emotional baggage. Then HE decided to make it complicated.

I know what it was.
But I still want us to
have anotther chance.

Whatever happened
has happened. Let's leave
it in the past and just be
professional office colleagues.

Trust me, priyanka. You will have the hottest life with me.

If you want, I'll take you to the US. I'll give you a luxurious life. We'll party, travel, and enjoy ourselves.

You remember... we had so much fun together.

You can wear whatever you want. Live your life exactly the way you choose. I'll never try to control you.

He is almost in tears. If I give him the comfort he needs right now, maybe I can get away without this becoming even worse.
I love you... I really do.

This was easier than being completely blocked by him. I know I'm doing something I shouldn't, but I have to find a way out.
I love you... I love you.

i want to make love with you right now.

you can wear anything you want. You can go to club. Even after marriage.

you can have multiple boyfriends. I will never mind

He really does care about me... but I know him. Once this fear of losing me passes, he may become non-serious again. I need to get out of here somehow.
